

Talk of the Town is a national research project our school is taking part in. The project is to help all our children with their talking and listening skills.

Being good at talking and listening helps children learn, work well with others, feel confident and make friends.

As part of the project, your child will be working in small groups, a few times a week. These groups are called 'Talk Boost' groups.

'Talk Boost' helps children to:

- Listen
- Learn more words
- Talk in sentences
- Tell stories
- Have good conversations

If you have any questions about 'Talk Boost' just ask your child's class teacher.
