Reading at Home

It's undeniable that a child's reading skills are important to their success in school, work, and life in general. And it is very possible to help ensure your child's success by reading to them starting at a very early age.

- **Reading supports cognitive development**

Reading to young children is proven to improve and help along the process of cognitive development. Cognitive development is the ability to think and understand; includes remembering, problem solving, and decision-making.

15 Minutes a day.
