

## **PE Curriculum**

The topics chosen throughout the year are to support the pupils with their in class learning and to further strengthen our cross curricular links. Our revamped PE curriculum will offer our pupils excellent broad learning experiences that will be accessible for all pupils regardless of individual needs and barriers.

The PE curriculum aims and vision will be further supported by our new overview and will continue to keep enriching young pupils' lives at the forefront of our practice. The overview demonstrates excellent sequencing of teaching and learning and also provides fantastic progression throughout the phases ensuring that all PE national curriculum aims and objectives are fully met with secure competence and enjoyment.

Last academic year (2023 - 2024) was extremely successful in providing our pupils with greater skills and knowledge for their wider lives. We will continue to provide our pupils with the highest quality provision to support them with their futures and this is reflected in the PE Passport overview.

There are a number of new topics added to our curriculum, for example fine motor skills, personal challenges, handball. We are always striving to link the pupils' learning to the wider world and ensuring they are aware that the sports skills and knowledge that they are developing are also transferable life skills that will support them in a vast range of settings and ultimately help them to develop into a successful young person.

Many thanks for your continued support.

Mr Newlands
