

The Leys Primary and Nursery School

PE and Sport Vision and Curriculum Intent

Here at The Leys, we promote the power of sport and physical education. We see PE and Sport as a vital ingredient in ensuring all our pupils are physically and mentally healthy and competent. We do this by providing a vast and broad PE curriculum that is accessible to all our pupils regardless of their individual needs. We ensure that our PE curriculum covers all the National Curriculum Aims. We understand the importance of inclusion and accessibility and the positive impact that this has on our learners. We firmly believe this helps our pupils to achieve being successful learners and confident young individuals.

We want every child to be:

- Physically and mentally competent and healthy.
- Competitive and successful in their own individual capacity.
- Show enjoyment and commitment when developing and maintaining a healthy, active lifestyle.

Our expectation is that every pupil will benefit from outstanding PE provision and be physically competent and confident through the planned, progressive curriculum and comprehensive extra-curricular opportunities.

We expect the values developed through PE and Sport to transfer into other areas of our pupil's lives, from their academic achievement to attendance, behaviour and teamwork.

We understand the importance of physical competence levels and the importance of regular opportunities to participate and compete and this is at the forefront of our planning and preparation throughout the academic year.

Mr J Newlands

PE Lead
