

Hello, my name is Chloe.

The Leys Primary School is an amazing school and I want to build on the fantastic foundation we have already. I am proud to be a student here and I hope you are too.

Our school is surrounded by lots of green areas. We are lucky to have a large field, a meadow and lots of flower beds. But who takes care of these? I would like to introduce a gardening team for all year groups to plant and grow more flowers and vegetables. This will not only benefit our school but also it will help the insects and wild animals in the surrounding area.

I believe that I would make a good representative on the Pupil Cabinet because I am reliable, thoughtful, and fair. I am passionate about our school and want you to be too. I will always make time for you and will listen to your views. If you have thoughts or suggestions on things you would like to see happen at school I will take these to the Pupil Cabinet and share.

Thank you for your time. Please vote for me!
